District 95 Families and Lake Zurich Businesses:

Lake County Housing Authority's plans to move 14 chronically homeless substance abusers with mental illness to Midlothian Manor, while a **good cause**, represents the **wrong location** for both local residents and businesses, all District 95 families with school-age children and the 14 Safe Haven residents themselves. Not only does zoning law and the Lake County Zoning Board of Appeals agree that it's the wrong location, the location is isolated from the necessary services the residents will need. It's a proposal doomed to fail the very people it claims to serve while burdening the community.

Midlothian Manor is located in a residential area across the street from local parks and District 95 schools.

Visit the efforts website for a meeting schedule, informative resources, how to donate and how to get involved.
